

TaurEye — Where We Are

Product status & competitive comparison · NSE/BSE EOD stock screener · web + Android

1. Where We Are — detailed status

Area	Feature	Status	Notes
Screening	Filter-based screener	Live	Over the metrics bundle (~5,800 stocks)
Screening	Natural-language screener	Live	Plain-English → filters; signature feature
Screening	Saved screens	Live	Local; cloud table exists in schema
Charts	Native charts (lightweight-charts)	Live	Timeframes, moving averages
Charts	TradingView widget toggle	Live	TV's own data
Charts	Auto pattern detection	Live	Drawn as lines (patterns.ts)
Charts	Per-stock Key Data	Live	RSI, SMA50/200, 52w, ATR + SEBI disclaimer
Data	Global indices dashboard	Live	+ ticker
Data	Scrip search	Live	
Engagement	Watchlists	Live	
Engagement	EOD price alerts	Live	Above/below
Engagement	Push notifications (FCM)	Live	Native, via Firebase
Engagement	Light/dark theme	Live	
Accounts	Supabase auth (email + guest)	Live	
Accounts	Cloud credit wallet	Live	Server balance, unforgeable (RLS)
Accounts	Signup bonus (50) + daily claim (5)	Live	Secure RPCs
Accounts	Referral program	Partial	Tables + page exist; reward grant not wired
AI / Reports	AI stock analysis	Built	Edge Function (Haiku); needs deploy + ANTHROPIC_API_KEY
AI / Reports	Advanced report	Built	Credit sink
Monetization	Broker affiliate (Zerodha)	LIVE & earning	Angel/Upstox/Dhan = paste links
Monetization	Ads — AdSense (web)	Built, gated	Needs ca-pub-... + unit IDs
Monetization	Ads — AdMob (app)	Built, gated	Needs IDs + APK rebuild + privacy policy
Monetization	Razorpay credit purchases	Built	Needs Razorpay account + webhook

Area	Feature	Status	Notes
Monetization	Credit charging	Off (by design)	Flip after AI + purchases live
Monetization	Pro subscription	Planned	Phase D (Rs 999/yr)
Platforms	Web (nginx, static)	Live	Deploys from main in ~1 min
Platforms	Android APK	Builds	GitHub Actions
Platforms	OTA updates (Capgo)	Wired	Needs CAPGO_TOKEN + CAPGO_ENABLED
Platforms	iOS	Scaffolded	Not a current build target
Infra	Nightly data pipeline	Live	EOD → CA-adjust → JSON export
Infra	Compliance (SEBI/RLS/secrets)	In place	Factual-only, keys server-side

2. Comparison with peers

Capability	TaurEye	screener.in	Chartink	Trendlyne	TradingView
Primary focus	Unified EOD screener (fund + tech)	Fundamentals	Technical scans	Everything (fund+tech+analyst)	Charting platform
Fundamentals depth	Key ratios (growing)	Deep (10-yr) ★	Minimal	Broad + DVM scores	Weak (India)
Technical screening	Yes	Weak	Strong ★	Yes	Generic
Intraday / real-time	No (EOD only)	No	Yes (near real-time)	Partial	Yes ★
NL / plain-English screen	Yes ★	No (query lang)	No (own syntax)	No	No (Pine Script)
Charting	Good	Basic	Basic	Decent	World-class ★
Auto pattern detection	Yes (drawn for you)	No	Via scans	Some	Via Pine/indicators
Alerts	Yes (EOD + push)	Limited	Yes	Yes (paywalled)	Yes
AI stock analysis	Yes (built-in, Haiku)	No	No	Some	Limited
Mobile app quality	Mobile-first native ★	Mediocre	Mediocre	OK	Good
India focus	Yes	Yes	Yes	Yes	No
Price / year	Free / Rs 999 Pro	~Rs 5,000	~Rs 2,400	Rs 999–6,000	~Rs 12,000+ (INR)
Free tier	Generous ★	Limited	Yes (ads)	Heavily paywalled	Limited

Our wedge: we don't beat any one of them at their core strength — instead we bundle fundamentals + technicals + plain-English search + AI + patterns + alerts into one fast, mobile-first app, free to start, undercutting a field where everyone else charges Rs 2.4k–12k and silos their features.
