

TaurEye — Where We Are

Product status & competitive comparison · NSE/BSE EOD stock screener · web + Android

1. Where We Are — detailed status

Area	Feature	Status	Notes
Screening	Filter-based screener	Live	Over the metrics bundle (~5,800 stocks)
Screening	Natural-language screener	Live	Plain-English → filters; signature feature
Screening	Saved screens	Live	Local; cloud table exists in schema
Charts	Native charts (lightweight-charts)	Live	Timeframes, moving averages
Charts	TradingView widget toggle	Live	TV's own data
Charts	Auto pattern detection	Live	Drawn as lines (patterns.ts)
Charts	Per-stock Key Data	Live	RSI, SMA50/200, 52w, ATR + SEBI disclaimer
Data	Dashboard home (Market Pulse)	Live	Index cards, breadth, sector heatmap, movers; post-login home
Data	Global indices dashboard	Live	+ ticker
Data	Scrip search	Live	
Engagement	Watchlists	Live	
Engagement	EOD price alerts	Live	Above/below
Engagement	Push notifications (FCM)	Live	Native, via Firebase
Engagement	Light/dark theme	Live	
Accounts	Supabase auth (email + guest)	Live	
Accounts	Cloud credit wallet	Live	Server balance, unforgeable (RLS)
Accounts	Signup bonus (50) + daily claim (5)	Live	Secure RPCs
Accounts	Referral program	Partial	Tables + page exist; reward grant not wired
AI / Reports	AI stock analysis	Live	Haiku via Edge Function; charged 10 credits server-side
AI / Reports	Advanced report	Live	Charged 5 credits server-side; refund on failure
Monetization	Credit charging	LIVE	CHARGE_CREDITS=true; server-authoritative, badge live-refresh
Monetization	Broker affiliate (Zerodha)	LIVE & earning	Angel/Upstox/Dhan = paste links
Monetization	Ads — AdSense (web)	Built, gated	Needs ca-pub-... + unit IDs

Area	Feature	Status	Notes
Monetization	Ads — AdMob (app)	Built, gated	Needs IDs + APK rebuild
Monetization	Razorpay credit purchases	Built	Webhook exists; needs checkout + keys
Monetization	Pro subscription	Planned	Phase D (Rs 999/yr)
Compliance	Legal pages (Terms/Privacy/Refund/Disclaimer)	Live	Public /legal/* routes; entity details in config/legal.ts
Compliance	Web launch hygiene	Live	robots.txt, sitemap, PWA manifest, signup consent, cookie notice, 404
Compliance	Security hardening	Live	RLS + security_invoker balance view + anon EXECUTE locked down
Platforms	Web (nginx, static)	Live	Deploys from main in ~1 min
Platforms	Android APK	Builds	GitHub Actions
Platforms	OTA updates (Capgo)	Wired	Needs CAPGO_TOKEN + CAPGO_ENABLED + one rebuild
Platforms	iOS	Scaffolded	Not a current build target
Infra	Nightly data pipeline	Live	EOD → CA-adjust → JSON export
Infra	Compliance (SEBI/secrets)	In place	Factual-only, keys server-side

2. Pending for production launch

Item	Priority	Owner	Note
HTTPS on the VM	Blocker	You / infra	Cleartext HTTP today; needed for trust + iOS ATS. TLS cert → flip bases to https
Lawyer review of legal text	Blocker	You	SEBI / DPDP / GST specifics before public launch
Fill config/legal.ts	High	You → me	Registered name, support/grievance email, jurisdiction
Broker affiliate links	High	You → me	Paste Angel One / Upstox / Dhan partner URLs (fast revenue)
Razorpay credit-pack checkout	High	Me + You	Build checkout + create-order fn; live on your keys + deploy
Capgo OTA setup	Medium	You	CAPGO_TOKEN secret + CAPGO_ENABLED=true + one APK rebuild
Signed store release builds	Medium	You	Release APK/AAB + iOS provisioning + store listings/data-safety
AdMob / AdSense IDs	Medium	You	Production unit IDs + consent wiring
Referral reward grant	Medium	Me	Wire the referrer/referee credit grant (tables + page exist)
Pro subscription (Phase D)	Later	Me + You	Razorpay subscriptions + monthly credit grant
Leaked-password protection	Skipped	—	Supabase Pro-only feature; deferred

3. Comparison with peers

Capability	TaurEye	screener.in	Chartink	Trendlyne	TradingView
Primary focus	Unified EOD screener (fund + tech)	Fundamentals	Technical scans	Everything (fund+tech+analyst)	Charting platform
Fundamentals depth	Key ratios (growing)	Deep (10-yr) ★	Minimal	Broad + DVM scores	Weak (India)
Technical screening	Yes	Weak	Strong ★	Yes	Generic
Intraday / real-time	No (EOD only)	No	Yes (near real-time)	Partial	Yes ★
NL / plain-English screen	Yes ★	No (query lang)	No (own syntax)	No	No (Pine Script)
Charting	Good	Basic	Basic	Decent	World-class ★
Auto pattern detection	Yes (drawn for you)	No	Via scans	Some	Via Pine/indicators
Alerts	Yes (EOD + push)	Limited	Yes	Yes (paywalled)	Yes
AI stock analysis	Yes (built-in, Haiku)	No	No	Some	Limited
Mobile app quality	Mobile-first native ★	Mediocre	Mediocre	OK	Good
India focus	Yes	Yes	Yes	Yes	No
Price / year	Free / Rs 999 Pro	~Rs 5,000	~Rs 2,400	Rs 999–6,000	~Rs 12,000+ (INR)
Free tier	Generous ★	Limited	Yes (ads)	Heavily paywalled	Limited

Our wedge: we don't beat any one of them at their core strength — instead we bundle fundamentals + technicals + plain-English search + AI + patterns + alerts into one fast, mobile-first app, free to start, undercutting a field where everyone else charges Rs 2.4k-12k and silos their features.
